DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/25/2006 has been entered.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- Claims 3-9, 12-18, 23-36, 46-73 should be cancelled.

Since claims 3-9, 12-18, 23-36, 46-73 were non-elected and withdrawn from consideration without traverse (See Remarks filed on 10/25/2006).

3. The following changes to the drawings is required by the examiner:

- Fig. 41C should be renumbered as Fig 42.

In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

Reasons for Allowance

4. The following is an examiner's statement of reasons for allowance:

- With regard to independent claim 37, as the closest reference on record, Emberty et al (US 6,600,703) shows a magazine data storage element drive 8 for use with a magazine data storage element 10 comprised of a frame structure, a plurality of hard disk drives 12 supported by the frame structure, and an interconnect structure that extends between each of the hard disk drives and a magazine-drive connector 22; **but fails to show** the drive including: a frame for supporting a magazine data storage element 16; a magazine data storage element cable operatively attached to the frame, including a drive-magazine connector for connecting with a magazine-drive connector of a magazine data storage element, a drive-device connector, and conductors extending between the drive-magazine connector and the drive-device connector.
- Applicant asserts that by using this configuration the magazine data storage element drive is capable of being directly connected to a host computer ([0337]).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
